EXPERIENCE

METRO — *Platform Engineering Intern*

July 2017

Worked on the METRO Platform, especially the container runtime environment

Functional & technical conception of a chaos monkey application and implementation in Go on Kubernetes

Presentation, documentation and knowledge transfer for the team

SITA — *Marketing & Product Design Intern*

July 2016

Designed pixel perfect website for Parkvogel (in development) ensuring optimization for both tablet & mobile user experiences

Worked on wireframes for the SITA iOS App in Sketch (ca. 100.000 users)

Tradity — *Product Designer*

2015 - Now

Created mobile-first mockups and prototypes for the new season of the stock trading game in Sketch (around 14.000 users)

Sevenval — *Web Development & UX Design Intern*

October 2015, October 2016

Made METRO & Distrelec websites responsive with Fit (Sevenval's Software)

Developed Fit Plugin to detect whether it is a mobile device and which software operates (currently utilized to show a promotional App Banner at the top)

Featured on Mercedes-Benz, METRO & Douglas websites
